

Index for The Chemist, 1961

Volume XXXVIII, January to December, inclusive

Issues of THE CHEMIST are numbered 1 to 12, beginning with January. After each item, the issue number is given, followed by a comma and the page number. Multiple references for the same item are separated by semicolons. (Thus 1, 6; 5, 17, would be January, page 6 and May, page 17.)

Information pertaining to THE AMERICAN INSTITUTE OF CHEMISTS is grouped under that heading. Other material is listed alphabetically, with explanatory words to indicate articles, Annual Meeting papers, reviews, etc.

We hope this index will be useful to you and your comments will be welcome.
